SECOND REQUEST FOR CORRECTION OF FILING RECEIPT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Attention: Application Processing Division
Customer Correction Branch

Sir:

Applicant requests the issuance of a corrected filing receipt (copy attached) for the above-referenced patent application, and in support of this request respectfully states:

The names of the first two inventors as listed on page 2 of the Declaration filed on July 9, 2004 (copy attached) were omitted and should be corrected as follows:

J. Bradford Forth

Peter C. Cowan

The first filing receipt had all 5 of the inventors listed on it but the two inventors noted above were dropped from the updated filing receipt subsequent to the filing of the declaration. A prior request to correct the filing receipt was rejected as improper and instructed the Applicant to file a petition to correct inventorship under 37 C.F.R. § 1.48. However, Applicant's representative believes such a petition is unnecessary as the previously filed declaration correctly listed all 5 inventors, including those noted as missing above. Accordingly, the inventorship of the present application is correct and only correction of the filing receipt is required to list all of the inventors.

Enclosed with this request is a copy of declaration (3 pages) filed on July 9, 2004 listing all 5 inventors, including the inventors omitted from the filing receipt, as well as a copy of the post card receipt evidencing receipt by the USPTO.

The Commissioner is hereby authorized to charge any fees required to Deposit Account No. 23-1925.

Respectfully submitted,

Date: September 22, 2004

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15****GRANTED**

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
